Any non-profit organization or agency which provide programs or services to Knox County's senior citizens who are 60 years of age or older is welcome to apply for senior levy funds. The Knox County Commissioners is seeking to fund services that promote a senior's ability to remain independent in the community. STATISTICS

The Knox County Commissioners is interested in understanding how effective your programs have been. Unduplicated counts of seniors receiving a service as well as counts of service units actually provided allow us to gain an understanding of your reach within your service area. It is useful to provide measures that indicate by service the numbers of seniors who typically receive services daily, monthly, annually as well as having unduplicated counts of seniors. Getting a breakdown of service costs will help the Knox County Commissioners to understand your costs in providing services. Costs should be identified by service in such a manner as to clearly show the organization's total expenses, the amount and percentage paid by the levy and a unit cost for each service during 2025.

Additionally, the Knox County Commissioners are aware that there exists some duplication of services throughout the county. While there are legitimate reasons to encourage consumer choice, the county does not want to incur unnecessary added costs by having multiple, overlapping service providers.

1. Complete as requested.
2. Detailed means an accurate accounting of services rendered such as: If your organization/agency provided transportation, identify the number of one-way trips and the # of seniors who benefited from the transportation. If your organization/agency provided meals, provide counts of those who benefited from this service.
3. Describe your process for collecting, inputting and reporting the number of seniors your organization assisted.
4. How many Knox County seniors do you project to serve in 2025 and is your organization creating additional activities or programs to assist these seniors, if so, please explain in detail.

COLLABORATION

The Knox County Senior Levy was approved to ensure that needed services continue to be available to Knox County senior citizens. Many services that are provided to seniors also receive funding through other agencies and funding streams. In some ways, it is conceivable that the levy funding could be used to gain additional federal and state dollars and/or be used to provide needed services not otherwise available through Older Americans Act, Community Services Block grants or through Medicaid and Medicare. As a service provider, your organization is often competing with other Knox County entities to serve the same population. In this section, the focus is describing how your agency interacts with other entities to assure that services are rendered cost effectively and in a manner that supports consumer choice.

Provide a description of steps your agency takes to assure consumer access to your programs. Identify any obstacles to collaboration that impact your agency and servicing the needs of senior citizens.

Since funds are limited, it is important to assure if service provision results in gaining additional dollars into the county that would otherwise not be available. We are asking that you identify specific areas where Senior Levy funds are used as matching funds for gaining additional program and service dollars. An example would be receiving funds through the Nutrition Services Incentive Program (NSIP). Note the amount of additional funds you anticipate receiving during 2026.

PROGRAM QUESTIONS REGARDING MANAGEMENT OF AGENCY RESOURCES

Explain any significant changes in revenue and/or expenses that occurred during the last year. Describe the impact of these changes on your budget for 2026 and beyond. What changes have you made or are expecting to make to account for any shortfall from prior funding levels you received?

Many organizations make use of volunteers. Describe the manner in which your organization uses volunteers in the delivery or support of senior services. There is no age limits for volunteers.

AGENCY BUDGET

1. Budget Request Form is located on pages 6 and 7. Page 6 is a description of the organization's expenses. The columns represent recent history as well as anticipated expenses for 2026 and 2027. The Senior Levy columns identify the amounts your agency received during program year 2025 as well as the amount you are seeking for 2026 and a projection of what you hope to receive in 2027. The 2027 figure is only an estimate. All employee lists are to be by position title and **not** include the name of the individual holding each position.

Note that our interest in 2027 is to understand future needs (for example, start-up costs for new programs or replacement or purchase of vehicles, food storage systems, or computer systems).

Items 1-3 should include all salaries and wages paid to the organization/agency regular and temporary employees and contractors/consultants. Also include Employee Benefits such as retirement, health insurance, life insurance, etc. and all required payroll taxes.

Items 4-11 Administration and overhead: costs should include supplies, telephone, postage and shipping, occupancy, equipment rental maintenance, printing and publications.

Item 12 Specific Program costs: Include related costs for each service that are integral to the delivery of the service. Examples include required trainings for certification activities needed by food preparers or delivery staff, fuel costs for agency-owned vehicles which are used to deliver services. Include all costs of conducting and attending meetings.

Membership Dues: Dues/fees paid to other organizations or cost of dues for individual membership of staff members in organizations relevant to agency function.

Page 7 contains two charts. The first chart is a listing of all funds received as income or carried over from a previous year. For item 1, identify the total amount of carry-over funds. Then use the Additional Information box at the bottom of page 8 to specifically identify each source and amount that comprises your carryover funds. Item 2 "Support from Senior Levy" for 2026 Projected Income should agree with the amount entered on Page 6 Total box for 2026 Senior Levy Requested Amount column. Completion of the 2026 Income Projections column will provide the Knox County Commissioners with an understanding of the impact of levy dollars in the agency's operation. Identify the dollar amount that your organization/agency is holding in reserve for future capital improvements such as repairs and replacement for major capital fixed assets etc. Also include the amount of Senior Levy dollars that have been carried over from previous years.

The second chart identifies all assets that are used by the agency/organization in the provision of services to Knox County seniors. This will serve to identify any major items that support your services program and which would likely need to be replaced at some time in the future. Attach a separate page if more space is needed.
